

## Post QTS

Now that staff have achieved qualification as a teacher, it will be important to continue to build upon the knowledge and experience they have gained. For others, they may have already taught for some time and simply need support to develop in their role further.

This excellent package therefore ensures that the experience and understanding already gained is strengthened even further. Created by educational experts, this package ensures staff acquire the skills, knowledge and practical advice they will need to truly help improve their experience as a teacher and outcomes for students.

### Courses included:

- Developing as a teaching assistant
- Expanding your understanding of primary teaching
- Developing your skills as a secondary Teacher
- Enhancing your ability to work with SEN students
- Expanding your understanding of teaching best practice
- Understanding how to teach with technology
- Preparing you to teach English for KS3 and above
- Preparing you to teach science for KS3 and above
- Preparing you to teach maths for KS3 and above

Guided learning hours: 103
